

# GAS ANALYSER

**NEW**

## Model GA 1.1

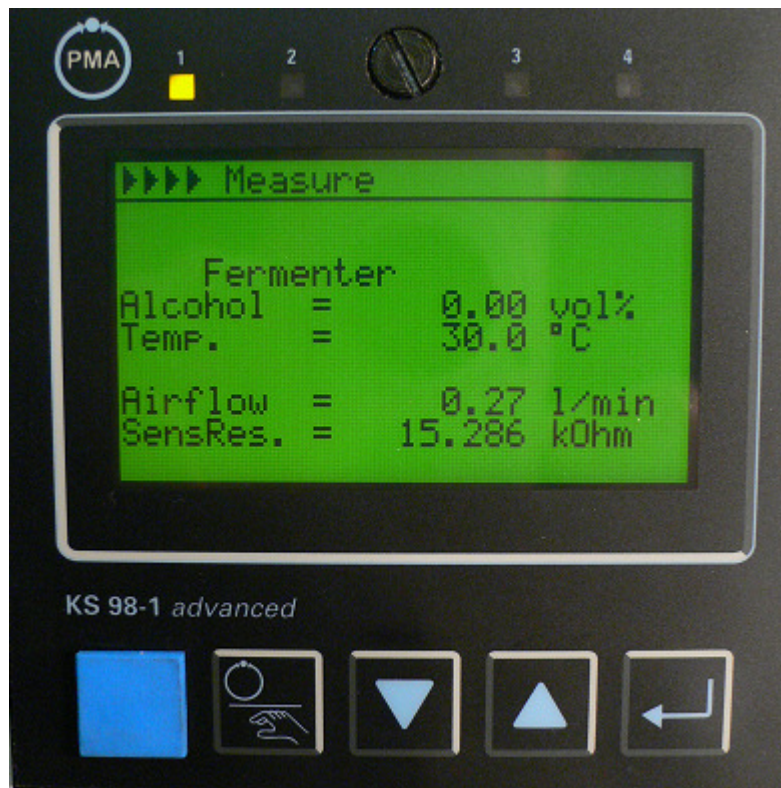

## NEW / IMPROVED DESIGN FEATURES

- ❖ Electronic Gas flow measurement with flow alarm
- ❖ Gas flow signal output in standard range 4 – 20 mA
- ❖ New model processor with improved resolution display (KS 98-1)
- ❖ Remote operation mode switch (measure / rinse mode change from PCS)
- ❖ Remote flow alarm reset (from PCS)

# MAIN DISPLAY VIEW

## STANDARD FEATURES

- Ethanol detection range selectable 0 – 1 % vol.
- Ethanol concentration signal output 4 – 20 mA
- Automatic temperature compensation and protection auto shut-off
- Improved fermenter connection with thread union DIN 11851
- Liquid entrainment inhibition by hydrophobic filter
- New sensor model with higher sensitivity
- Air jet pump induced gas flow
- Precision calibrated sensors available as spares
