GAS ANALYSER

Model GA 1.2

NEW ADVANCED DESIGN FEATURES

❖ **Touch-Screen Operation with Colour Display**

❖ **Selectable Communication Language (De / En / It / Es / Others)**

❖ **High-End Connectivity via Ethernet or Modbus**

❖ **Local Trend Documentation on Display**

❖ **Data Logger Function**

MAIN DISPLAY VIEW

IMPROVED / STANDARD / FEATURES

- *Increased Resistance Range up to 22 kOhm*

- *Improved Calibration Routine with specific Equipment*

- *Facilitated Sensor Parameter Calculation by mobile App (Android op.)*

- *Alphanumeric Keyboard Screen for Data Input*

- *Local Alarm Indication with Red Background Colour highlight*

- *Automatic Flow Alarm Reset*

- Ethanol Detection Range selectable 0 – 2,5 % vol.

- Ethanol Concentration Signal Output 4 – 20 mA

- Automatic Temperature Compensation and Protection auto Shut-off

- Fermenter Connection with thread Union DIN 11851

- Liquid Entrainment Inhibition by Hydrophobic Filter

- Remote Operation Mode Switch (Measure / Rinse from PCS)

- Air Jet Pump Induced Gas Flow (no moving Parts)

- Precision Calibrated Sensors available as Spares
